

## Newsletter 2021

It has been a very difficult 18 months. I want to pay tribute to my wonderful staff who have worked throughout the pandemic, first as an Urgent Dental Care Centre and now increasingly working towards returning to a 'new normal'. They have demonstrated extreme bravery working in such a high risk environment, and I am very proud of them all.

The surgery still has reduced capacity due to Covid issues and the need for good infection control. We are striving hard to look after as many patients as we possibly can and welcome your calls and enquiries.

We are delighted that Sophie is now a 'qualified' dental nurse.

In line with our interest in investing in youth, we have welcomed Tazmin and Olivia to our team. In August, additionally Keeley will be joining us.

The staff all took part in a sweepstake competition for the Euros. Our associate John Essam triumphed with the winning team Italy, and donated his winnings to Marie Curie.

### DID YOU KNOW?

Not only is the surgery carrying out routine dental care, but other services are available as follows:-

- **Facial Rejuvenation & Enhancement including Dermal fillers**
- **Snoring Devices**
- **Treatment for Perspiration**, to stop those telling marks on your shirt/blouse underarm
- **Adult Orthodontics with Invisible braces**. Systems called CFast and Smile Tru are used at this surgery.
- **Whitening treatment**. This treatment is tremendously popular as it is simple for the patient, very effective and affordable.

If you are interested in any of the above services, please ask at reception and you will be appropriately signposted to the correct dentist who will give you further information.

Finally, the Dental Team hopes each and every one of you are keeping safe and well, and we in turn will endeavour to do our best at all times for you.
